There will always be a call for new leaders! The *AEEE Emerging Leaders Institute* (ELI) is designed to develop leaders from within our region, so that they can easily transition into positions of leadership in TRIO. ELI will provide resources for new professionals to grow, and create opportunities to become involved on both the state and regional level, in support of TRIO programs and the students we serve.

At our annual conference each year, we select a new cohort of emerging leaders. Attendees that attend 3 of the 4 Emerging Leader workshops being offered will be invited to join our newest cohort. *The first two sessions are both required!*

Why should *YOU* become an emerging leader?

- Increased connection to current Board Members & colleagues from a wide array of institutions
- Discounted registrations for COE Events (Policy Seminar, etc.)
- Special Invitations to regional and national TRIO events
- Yearlong professional development opportunities
- Resume Booster

Attendance and participation will be confirmed based on completion of workshop evaluations. Contact Kyvaughn Henry at kyvaughn.henry@rochester.edu for more information.
